- Offering long term programs for adult men, women, women with children and pregnant women. Dual diagnosis patients are eligible.
- Medicaid

Teen Challenge - 2 Colorado Locations

The programs are typically 12-18 months and consist of Bible studies, work projects, education (for adolescents), recreation and more. Many aspects of the program differ slightly between centers, such as cost, application processes, and day-to-day activities. **HOLISTIC RECOVERY**

Although many potential students do not initiate contact with potential programs, during the admissions process, most programs will want to speak directly with the applicant.

Please understand that it is your responsibility to provide transportation to and from Teen Challenge.

Adolescent Teen Challenge programs generally work with teens ages 12-17. Most adult programs work with individuals over the age of 18. There is not usually an upper range age cap in adult programs. The average age in adult Teen Challenge programs is between 25-35.

Each individual Teen Challenge program has its own policy regarding fees, tuition, and refunds. This information should be thoroughly explained, and provided in writing, at the time of admission. In most cases, admission fees are non-refundable. In adolescent programs where finances are more of an issue, refund policies will be provided by the individual Teen Challenge programs.

There are a few Teen Challenge programs that work with the whole family. There are some Teen Challenge programs that are for mothers and their children. Call (417) 581-2181, or visit our Residential page for more details.

Most Teen Challenge programs require that you detox – preferably a medically supervised detox – prior to entering the program

Costs vary from center to center.
